DESCRIPTION:

A team of professional photographers will help capture your most memorable moments in Miami as part of a private photo shoot.

A few days before the photo session you will meet with the photographer and discuss all the details of the photography: choose the area of the city that you prefer, outfits and props.

On the appointed day you will meet with the photographer in the place chosen by you and start photoshooting. After the first few pictures, the professional will give advice on the best poses and shooting. After the end of the photo session, you can view the pictures in the online gallery where you can order the printing of the photos you like and exchange digital copies with friends and family.

As a result, you will get high quality photos and with professional processing. If you go for ever to capture romantic dates with your loved one or have fun holidays in a noisy company, an individual photo session with a professional photographer is exactly what you need.

What is waiting on you:

- photo session with a professional photographer
- the ability to choose the location and area where the shooting will take place
- the ability to view photos in the online gallery 5 days after the shooting
- an individual photo shoot is ideal for couples and groups of up to 12 people

What you need to know before ordering a photo session

- you must be over 18 years of age
- the maximum size of the group is 12 people
- photos are for personal use only (photos for commercial use can be made for an additional fee)

After booking the photos, our specialist will contact you to coordinate the exact time of the meeting with the photographer.
