DESCRIPTION:

The Miami Auto Museum at Dezer Collection – is truly considered like one of the most unusual museums not only in Florida, but all over the world. In this museum are collected and presented unusual, rarity and rare cars, luxury motorcycles, non-standard aircraft, secret agents and other means of various superheroes that have gone down in history. About the cost of some of them, even scary to think, however, every visitor is always can buy any model.

Visiting the museum you can easily be moved into the past along with some of the first and oldest models of Cadillac, Ford and Chevrolet, thanks to which all the modern automobile industry began. You can also afford the luxury of being in the future, to look at electric vehicles and feel like one of your favorite movie characters, to contact with the vehicles that were used by them.

The idea of creating such an unusual museum was a dream of the businessman and collector Michael Dezer, which he successfully implemented. His enthusiasm for cars began when he was 16 years old, when his father gave him the first motorcycle.

The museum has 9 main expositions, where we have the opportunity to get acquainted with the history of the development of classical European and American models, bicycles, military equipment, motorcycles and even micro cars. The pride of the museum is a collection of vehicles and objects from the James Bond movies! In this famous collection are collected all the models on which the agent 007 moved under the water, through the air and on the ground. The cost of the collection is now estimated at \$ 20 million.
